VOLUME IV. EDMONTON, ALBERTA, WEDNESDAY, FEBRUARY 7., 1906. NUMBER 32

TWENTY THOUSAND DOLLAR HOTEL FOR SECOND STREET

William Spurrell, of Alix, will Build Large Three Storey Brick Hostelry at the Corner of Second Street and Peace Avenue.

Plans are being prepared and will probably be completed today for a three storey hotel to be built at the south-west corner of Peace and Second street. Wm. Spurrell, of Alix is the owner and Cannell & Spencer are the architects and builders.

The building will be of solid brick and will cost $20,000.

The plans now being prepared call for a building having a frontage of 50 feet on Second street and 102 feet along Peace. There will be 54 bedrooms, modern plumbing with baths on every flat, electric balls throughout, electric lights, all plumbing and wiring concealed, steam heat, and the building in every respect a first class one for hotel purposes. The contract calls for a stone foundation and full basement.

Mr. Spurrell's investment, when the building is completed will be $31,500, exclusive of furnishings as he has already purchased two lots at $11,500.

The location is a particularly desirable one, being within one block of the Canadian Northern depot.

Construction is to commence as early in the spring as possible, and the building will be rushed through as quickly as possible as Mr. Spurrell hopes to get opened up during the early summer.

Mr. Spurrell is an Edmonton man and well known in the city. At present he is hotel keeping at Alix, but intends to personally conduct the Second street caravansary when it is opened for business.

HOOVER DISMISSED

When court resumed yesterday afternoon, on the trial of Hoover, the prisoner was put in the witness box. He stated that when he took Bleiler's waggon and team to Edmonton, he had offered to pay Bleiler the expense of feed and he had not stolen any of the goods from the waggon and had never any intention of doing so. His Lordship dismissed the case.

John Bleiler, charged with defamatory libel was then called. The charge was that Bleiler had written a letter containing defamatory libel against John A. Flanagan, a commercial traveller, to the Vermont Implement Company, Bellows Falls, N. Y. Before the prisoner was arraigned, the counsel for the defense, Mr. O'Connor, took objection to the case being tried, claiming that there was no jurisdiction for trial, as the letter had been mailed to the United States. He claimed that no libel was committed unless the letter was seen by a third party, and if a letter had been written as was claimed, it had not been published until it arrived in the States. Mr. Newell, who was conducting the prosecution, pointed out from the statutes that the libel had been published as soon as the letter had been mailed and was out of control of the respondent. A charge could be laid either in the country where the letter was mailed or in that in which it was received. His Lordship thought this covered the case. When Bleiler was arraigned, he pleaded not guilty, and elected to be tried by a jury, and the case was postponed for two weeks to come up with the other two jury cases. Court then adjourned.

HOUSE MEETS MARCH 8TH.

Ottawa, Feb. 6.—At a meeting of the cabinet an order in council passed summoning parliament to meet on March 8.

CITY COUNCIL DISCUSSES THE RAILWAY SITUATION

Aldermen Willing to Deal With the C. P. R. for Combined Traffic and Railway High Level Bridge, but G. T. P. Must Come in by way of Clover Bar

THE ALDERMEN ARE UNANIMOUS ON THE PROPOSITION

"It is Essential," says Alderman Mays, "That the Grand Trunk Should Enter the City From the East." No Longer any Secrecy About What the City Wants

To satisfy the city council, the Grand Trunk Pacific must cross at Clover Bar, and enter the city direct from the east. The council will be found unwilling to deal with the company on any other basis, and the $100,000 bonus and free right of way that the city is prepared to offer the company will be extended only on consideration that the road enters the city as desired by the council.

This is the important announcement which was sprung at the council board last night by Aldermen Mays and Smith, and it was declared that the council was unanimous on the proposition.

The statement was made during a consideration of the relationships that are likely to exist between the city and the different railway companies entering or about to enter the city.

The discussion was the outcome of a telegram received from Alderman W. A. Griesbach from Calgary, while the council was in session to the effect that the C.P.R. is preparing plans for a high-level bridge, and wishes to close something with the city at the earliest possible moment. The tenor of the Aldermen's remarks were to the effect that the city was ready to deal with the Canadian Pacific for foot traffic and vehicular accommodation.

In referring to the matter Ald. Smith said that at a previous meeting, when the high level bridge was being considered, it was unanimously concluded by the council that the vital point for Edmonton was to see that the Grand Trunk Pacific made its crossing at Clover Bar, and came into the city from the east.

Ald. Mays corroborated this proposition, stating that it was essential that the G.T.P. should come into the city direct via Clover Bar.

Briefly stated, this is the proposition which the city council unanimously concluded to present to the Grand Trunk Pacific, and it was with the idea of laying it before Mr. Morse that the mayor and aldermen tried to arrange a meeting with the G.T.P. people in Winnipeg. Up to that time there was considerable secrecy on the part of the aldermen as to what the city would be willing to do, but now that the company has bought the Clover Bar crossing, and is working along the lines desired by the aldermen, there is no longer any reason why the city council should hesitate to disclose its hand.

Last night's meeting of the city council was attended by only a bare quorum, Aldermen Mays, Smith, Picard, Latta and Bellamy.

Ald. Picard, as senior member of the council, took the chair, and the minutes of the last meeting were adopted as read.

Among the correspondence the first letter read was from Short, Cross, Bigger & Ewing, who wrote as solicitors for a firm of founders whose name was not given in the letter, proposing that, on condition that the city would give them as a site a portion of block 16, river lot 14, and exemption from taxation for a period of ten years, they would establish an iron foundry in the city. The land asked belongs the city, having been acquired at the time that the Canadian Northern right of way was being purchased into the city. The letter stated that $30,000 would be spent on buildings immediately. The matter was referred to the finance committee to be reported on at the next meeting.

A complaint regarding the pound-keeper was read to the effect that the officer had untied a colt from where it was tied to a fence and taken it to pound against the protests of the owner.

Ald. Bellamy moved, and Ald. Mays seconded, that the matter be investigated, and if the complaint is found correct that the pound-keeper be dismissed at once. Ald. Bellamy said that the council had had about enough trouble with the present pound-keeper, and it was time to get another.

The secretary of the Edmonton Industrial Exhibition wrote requesting the council to pay the deficit on last year's exhibition, for which it had assumed the responsibility. The amount is $2704.07. The matter was referred to the committee previously appointed for the purpose of certifying to the accounts, on the understanding that the committee act in conjunction with the finance committee, and report at the next meeting.

A. C. Neff, the special auditor, wrote sending his bill of $742.21 for the special audit prepared by him, and stating that he had drawn on the city for $400. On motion it was decided to accept the draft and lay the balance of the account on the table for further consideration.

A report from W. A. Griesbach, chairman of the fire and water committee, was read, in which Mr. Griesbach stated that W. P. West was in Calgary and keeping his eyes open for a good fire team, and to honor his draft for the same in case he should make a purchase.

Ald. Latta contended that the proper way to buy horses was to advertise for them.

Ald. Mays pointed out that at the first meeting of the council this year the aldermen had put W. A. Griesbach in the position of being head of and general manager of the fire department, and had made him chairman with that understanding. He said that as Mr. Griesbach was running that part of the business he should be left to run it, and made a motion that any draft for horses be accepted as suggested by Mr. Griesbach.

Alderman Latta suggested that a veterinary certificate should be attached to the draft, which suggestion was accepted by Ald. Mays and the motion carried.

While the city council was proceeding with its business a wire from W. A. Griesbach was received and read, as follows:

Calgary, Feb. 5, 1906.

To the Acting Mayor,
Edmonton.

C.P.R. desires council to consider proposition re terminal arrangements and traffic facilities on high level bridge. Plans preparing. Company wants city's earliest possible date by wire.

W. A. GRIESBACH.

Ald. Mays said that so far as he know there was no proposition before the council from the Canadian Pacific.

Ald. Latta thought there was a proposition, and to prove the matter the minutes of the special meeting held at the time that Messrs. Jamieson and Dennis met the council were read.

In these minutes it was recorded that Mr. Dennis had said that the C.P.R. was prepared to build a high level bridge and to make it a foot traffic and vehicular as well as a railway bridge, on condition that the city would undertake a part of the expense, the amount of which was not named by Mr. Dennis. It was also recorded that Mr. Dennis had asked the council to use their endeavors to have a union depot established.

Alderman Smith stated that at a previous meeting when the high level bridge was being considered, it was pointed out and concluded by the council that the vital point for Edmonton was to see that the Grand Trunk Pacific crossed at Clover Bar, and came into the city from the east.

Ald. Mays corroborated this proposition.

Ald. Bellamy pointed out that the telegram under consideration emanated from the C.P.R., and that they were not at the present time considering the G.T.P. proposition at all; that the city could close with the C.P.R. on this without affecting the Grand Trunk Pacific proposition.

Acting Mayor Picard pointed out that the C.P.R. had not disclosed any particulars as to what they wanted, and such being the case it was not up to the city to particularize what it would be ready to offer. The city solicitor drew up the following telegram to be sent to Ald. Griesbach, who, it was expected, would put it in the proper hands:

"Council will do all it can to bring about terminal arrangements asked by the company, and are strongly in favor of the city paying its share of the extra cost of addition to the bridge.

[Signed]
ACTING MAYOR PICARD."

The Finance Committee's report recommending the payment of accounts was adopted, and the council adjourned.

CONGRATULATES AUSTRALIA

London, Feb. 7.— With remarkable good feeling and Imperial breadth the merits of Canada and Australia for emigration were discussed at a meeting of the Colonial section of the Society of Art today. Lord Strathcona said that there were none more proud of Australians than Canadians. After citing the possibilities of Canada he said, "We in Canada are well satisfied with our portion of the Empire. We do not envy but congratulate Australia and trust we may each emulate the other in doing our utmost for our own particular state, reflecting, as far as possible the benefits to all parts of the Empire."

SURVIVORS NUMBER THIRTH-NINE

Victoria, Feb. 7.—Thirty-nine survivors of the Valencia wreck have been accounted for, and there have been thirty-seven bodies recovered. Twelve bodies were brought to the city on the steamer Lorne and eight on the Wyadda Saturday, seven on the Lorne Friday, three on the Queen City Thursday, one on the Bahada. Three went on the Grant to Seattle. One was buried on the long beach and two are still on the beach near the wreck.

—Mr. Clough Gaunt, of 5 Westover Place, Bramley, Leeds, England, writes the Bulletin that he is immigration and shipping agent there and would be pleased to receive communications from farmers in this district requiring farm hands or domestic servants.

LUMBERMAN ON TRIAL ON CHARGE OF ARSON

Case of J. B. Johnston, of Lavoie, Charged with Burning His Stock of Lumber, Begins in Supreme Court.

At the opening of supreme court this morning at ten, the trial of J. B. Johnston, charged with arson at Lavoie, was was proceeded with. Johnstone keeps a lumber yard at Lavoie, which was burned on the night of December 31st, and it is alleged that Johnstone set fire to the place, with the object of securing the insurance.

The first witness examined in the case was Michael McNeil who keeps a general store at Lavoie. He was present at the fire on the night of Dec. 31st, and together with a number of the neighbors succeeded in saving some of the lumber. During the progress of the fire a train arrived fom the west Johnston was on the train. Witness told him of the fire and Johnston had no suggestion to offer as t othe cause. Witness told him a sprinkler had been found between the tracks and the yard. The accused stated that he thought the matter of wh ohad fired the lumber should be left to the insurance company. The settlement of the Manville hotel fire insurance had been made in short order, and the accused said he saw no reason why the insurance company should not settle this fire claim just as quickly.

Frank St. Peter Lavoie was next called. He was at the fire on the 31st, and did not see anything of the accused.

Arthur Pass was called and said he saw the accused the morning after the fire. Discussing the fire accused thought it was possible that a spark from the train had caused the fire. Pass stated that when he saw the fire it was in three distinct places, apparently being started in shingle piles.

Wheelock Burgess, who was at the fire stated that he was out riding in that vicinity a week ago Sunday and found a beg, which he took to Gibson's store. He identified the peg produced in court as th eone he found.

Thos. W. Thompson was called and stated that on New Year's morning while walking around near the lumber yard in company with two other men found a water sprinkler, which had apparently contained coal oil. There were a few drops of what was apparently oil left in the can. Witness later saw the can in the town.

E. A. Phalen, when called, recognized the can as that which he had turned over to Constable Blythe at Vegreville.

The case is being continued this afternoon.

R. C. C. C. ANNUAL MEET

Calgary, Feb. 7.—The annual meeting of Alberta Branch of the Royal Caledonia Curling Club was held here last night. It was decided to hold the next bonspiel in Calgary. The following officers were elected:

President—H. S. McLeod, Calgary.

1st vice president—M. McLean, Macleod.

Second vice president—Jas. Aird, Macleod.

Secretary-treasurer—J. R. Miquelon.

Executive committee—O. F. Smith, Calgary; A. C. Fraser, Red Deer; F. Pingle, Medicine Hat; K. A. Simpson, Innisfail; Jas. Smart, Calgary; Col. Walker, Calgary.

CANADIANS ARE EASY.

Portland, Maine, Feb. 7.—That a successful scheme has been on foot for months to bring Canadian rosbeats here on promises of free trip to Europe with good pay for light work on the voyage and that large numbers have accepted the offer and paid sums varying from ten to twenty dollars for an opportunity to cross the ocean in the capacity of overworked and practically unpaid cattle tenders, has been brought to light here.

HIGHER DUTIES ALL ALONG THE LINE

Canadian Manufacturer's Want More "Protection" Against American Goods

Ottawa, Jan. 6.—The Canadian Manufacturers' Association presented its case to the Tariff Commission today. President Ballantyne read a document couched in general terms. While the manufacturers do not demand discrimination against the United States, still they say that on account of the close proximity of that country they want higher duties all along the line to prevent the keen competition which Canada is meeting from them. They also asked that Canada should have reasonable protection against British goods, the idea being that what was not manufactured here should come from Britain. The dumping clause was approved and they did not wish the British preference to be disturbed. Woolen men asked for higher duties against Britain. Steel and iron men said that but for the dumping clause they would be driven out of business. The International Harvester Company opposed further protection on agricultural implements, as it was a burden on the farmers.

G.T.P. BRANCHES

The following are the branch lines in detail which the Grand Trunk Pacific Branch Lines Company will ask power to construct:

1 From Moncton to Halifax.
2 From a point on the transcontinental to St. John.
3 From Montreal to a junction with the transcontinental.
4 From Ottawa to a junction with the transcontinental.
5 From North Bay to junction with the transcontinental.
6 From the transcontinental northeast from Fort William to a junction with the Grand Trunk railway north of Toronto, with the right to pass through or reach by spur line Sault Ste Marie or Sudbury or both.
7 From and around Winnipeg through surrounding districts and to boundaries of Manitoba subject to approval of the governor-in-council.
8 From Brandon to a junction with the Grand Trunk Pacific.
9 From Brandon to boundary line between Canada and the United States.
10 From Brandon to Carberry.
11 From Yorkton to a junction with the Grand Trunk Pacific.
12 From Regina to a junction with the Grand Trunk Pacific.
1 13 From Regina to the boundary line between Canada and the United States.
14 From Prince Albert to a junction with the Grand Trunk Pacific.
15 From Battleford to a junction with the Grand Trunk Pacific.
16 From Calgary to a junction with the Grand Trunk Pacific railway at its fourth terminal in or in the vicinity thereof.
17 From Calgary to a junction with the Grand Trunk Pacific railway at its fifth terminal.
18 From Calgary to the boundary line between Canada and the United States.
19 From Vancouver to the junction of the Grand Trunk Pacific railway or to a junction with the Pacific Northern and Omenica railway or both.
20 From a point on the north shore of Vancouver island in a general southerly and southeasterly direction and along to the western side of the island to Victoria.
21 From Dawson to a junction with the Grand Trunk Pacific Railway.
22 From the northern terminals of branch lines extending northerly from the Grand Trunk Pacific Railway to Hudson's Bay.
23 Such other lines of railway as the company may from time to time deem expedient for operation in conjunction with the Grand Trunk Pacific railway system, subject to the approval of the governor-in-council.

The Great West Saddlery Company
Limited. Wholesale and Retail.

The conditions under which my
Pharaoh Cigar
is made are ideal.

We have a contented little community of our own, that is not worried by outside conditions. The wholesome, country-town life that we live, tells in the quality of our work.

Every employee in my factory has his whole heart in his work. From the oldest workman, who started with me when I had a small room for a factory, a big bunch of enthusiasm and a high idea of quality, down to the lad who just joined us the other day, every one is putting the best that is in him into his work.

Under such conditions it is no wonder that my Pharaoh is the best ten cent smoke on the market. We are all working with the one object—to produce the best cigar possible.

I go to Cuba every year and buy the best tobacco produced. I know that every leaf that comes to my factory is right. My workmen see that every roll they give it will help make it a perfect, even-burning smoke. Its a combination that's hard to beat.

None genuine unless branded "Pha-ro." Price 10 cents.

LA BING ON TRIAL FOR MURDER

Lia Bing, the Chinaman charged with the murder of Stanley Ross, at Stinlaluta, on the evening of Oct. 28th last was committed for trial by Magistrate McCausland yesterday afternoon and this morning he was arraigned before Mr. Justice Newlands, pleaded not guilty and will be tried at the sitting of supreme court on February 15. Evidence of a very interesting nature was adduced at the preliminary hearing yesterday when the two lads who were in company with Stanley Ross in the laundry when the alleged crime was committed, were examined. Sam Lee, a local Celestial acted as interpreter for the benefit of the prisoner.

Dr. X. Bouju was the first witness called. He stated that he had been summoned to see Stanley Ross when the was wounded and found him to be dying from the effects of a cut in the back of the head. He had a cut about two inches long. The bone was pushing through the brain, and caused hemorrhage. The blood ran from the mouth, ears and head. The wound was caused by a sharp and heavy instrument. The direct cause of death was hemorrhage and compression of the brain. He was also called into the Chinese laundry where he found the accused, Lia Bing, lying on the floor with a gash in his throat. In his hand the Chinaman held a cleaver which was produced and identified.

Mark Daniel King was called and swore that during the evening of Oct. 28th, he was in the laundry run by Lia Bing, in company with Danial Ross and his brother, Campbell King. Stanley Ross was sitting on a box three or four feet from the Chinaman and the witness was eight or ten feet away. His brother was at the other end of the room. He saw the Chinaman had hold of Stanley Ross by the shoulder, although he had not noticed when he caught the boy. The witness looked around for his brother and then ran out of the building.

Mr. Ross on examination could not find from the boy under what circumstances the Chinaman took hold of Stanley Ross, but Mr. Haultain on cross-examination, secured the admission that Ross had taunted the accused to the extent of telling him to hurry up with some laundry for which he was waiting.

The witness had seen the cleaver before, and identified it as one which was in Lia Bing's shop, being used to cut meat. He did not see the cleaver the hands of the Chinaman. He had also seen the cap which was produced and identified it as the one worn by Stanley Ross on the night of the tragedy.

The next witness Campbell King, aged ten years was rather reticent about what had happened in the laundry, apparently being scared by his unusual situation, and afraid to tell what happened. His evidence so far as it went, however, was straightforward and clear and bore out to the story of his brother Mark. He testified in addition to what his brother had said, that he was the last to leave the shop. When he ran out the Chinaman was running about the room as if in terror. He did not see the cleaver in the hands of the accused.

Charles Ross, father of the dead boy, was then called to give evidence. Asked if he remembered the evening of October 28, he replied, "I do, right well. My son Stanley was murdered on that night." He told of the lad running into the house bleeding, and of himself going over to the Chinese laundry. He had no conversation with the Chinaman at that time, but on the following day went over to where the accused was lying. The accused beckoned the witness to sit down, and then asked for a book which was a Chinese reader. It contained English words with the corresponding character opposite. The Chinaman picked out the words to form the sentence, "I beg your pardon," Witness ness sat for a while, and then took the book making out the sentence, "Did you hit Stanley?" He had to give the last word in English, as the proper name was not in the book. The Chinaman nodded his head, as witness thought meaning an affirmative reply to the question.

The last witness before committal was Rupert Ross, brother of the dead boy. His story was merely that of carrying Stanley in to the doctor, and tracing the blood marks over to the Chinese laundry. The only words the lad uttered before he died were, "Oh, Mamma," and, "I'm all right." The flow of blood from his mouth was so steady that he found it difficult to speak at all.

Lia Bing has not recovered sufficiently from the attempt to take his own life to breathe freely. He catches his breath in gasps and at times places his handkerchief to his mouth as if about to choke. He very frequently asked for a drink the court was going on, and with all the solid indifference of the Oriental, appeared to take little or no interest in the proceedings.

FOSTER'S FORECAST.

Washington, D.C., Feb. 3.—Last bulletin gave forecasts of disturbance to cross continent Jan. 30 to Feb. 3, warm wave Jan. 29 to Feb. 2, cool wave Feb. 1 to 5. The next disturbance will reach the Pacific coast about 4, cross west of Rockies by close of 5, the great central valleys 6 to 8, eastern states 9. Warm wave will cross west of Rockies about 4, the great central valleys 6, eastern states 8. Cool wave will cross west of Rockies about 7, great central valleys 9, eastern states 11.

The principal feature of this disturbance will be the great rise in temperatures. Previous to its coming the weather will be cold, and following it will come a February thaw, and a long spell of warm weather.

Third disturbance will reach Pacific coast about 9, cross west of Rockies by close of 10, great central valleys 11 to 13, eastern states 14. Warm wave will cross west of Rockies about 9, great cenral valleys 11, eastern states 13. Cool wave will cross west of Rockies about 12, great central valleys 14, eastern states 16.

This will be the most severe disturbance of the month, and will also be important because of its high temperatures. With the closing of this disturbance will begin an increase of precipitation, and from that date until about March 5 average temperatures will be downward and precipitation will increase.

This rainfall forecast does not apply to sections for which I have predicted drought. Where the droughts are predicted my other forecasts do not apply.

My forecasts of remarkably high temperatures in January for the great central valleys, especially for their northern section, were a series of great successes. The great cold wave came as predicted about 20 to 24.

Two prominent scientists have recently endorsed planetary meteorology, and are advocating an investigation of the relations of sun, moon and major planets to our weather changes, and whether electricity or magnetism have anything to do with these relations. One of these noted scientists referred to is a well known astronomer and meteorologist. The other, Dr. Aikins, professor of physiology in the California medical college at San Francisco, authorizes me to say that planetory meteorology is worthy of further investigation. He believes that electricity is the motive power of the solar system and of animal life. His name is in every leading journal because of his notable experiments that prove the relations of electricity to the brain the mind, the blood and the muscular contractions of the animal structure. Dr. Aikins began to observe my theories and weather work 15 years ago while he was working on a newspaper that published my weather service.

Any one who will apply the effect on temperatures of the oppositions of Neptune for the past eleven years will get a revelation, an unmistakable demonstration. I will mail this demonstration to any scientist who will indicate to me that it will be acceptable.

WEST ASSINIBOIA DID WELL

West Assiniboia is to be congratulated on the return of Mr. W. E. Knowles by acclamation as Federal representative for that constituency. The congratulation is due not only because Mr. Knowles goes to Ottawa as a supporter of the policy of Western settlement and development, but because his opponent aspired to enter the House of Commons on a program which subserved such questions to the all-absorbing purpose of continuing the campaign of dissension, the inevitable consequence of which could only be the broadening of the breach between the two great religious bodies of the nation and the logical consequence of which would be the re-adjustment of the Canadian parties along the line of religious difference.

THE CAUSE

The era of railway construction which has dawned upon the west has not come by accident. Industrial and commercial development are not the creatures of chance, nor are railways built by accident. Transportation facilities will multiply only when and where the prospects promise a reward for the effort expended and the capital invested. If the future of the west did not hold the hope of increased and increasing traffic, the west today would not see the beginning of a new transcontinental railway and the enormous extensions of the existing carrier systems. And the measure of the proportions and the soundness of the hope is the measure of the enterprises which the ablest railway men on the continent are planning and executing to secure a part in its realization. No stronger testimony could be given of the solid merits of the Canadian west than the fact that three experienced railway companies are staking reputation and credit to secure a share of the business of carrying out its products and bringing in its purchases.

Nor have the conditions which created this hope and which justify the investment of millions in western railway enterprises been the results of natural industrial evolution unaided by definite and deliberate human effort. Great are the resources of the west—great probably beyond the estimate of the most sanguine, but great resources alone never made a country and never can. Nature provides the opportunities, but unless intelligence and energy utilize the opportunity it passes forever. What the resources of the west are today so have they been for centuries and the general prosperity reflected in every corner of the Dominion today might have been enjoyed by an earlier generation had its energy been applied to the development of those resources. If it be true that Heaven helps those who help themselves it is equally true in the history of Canadian progress that the assistance was extended only when the self-exertion began. Western Canada today needs more railways, demands more railways, and can pay dividends on more railways, but that condition is due not to any increase in the intrinsic value of our latent resources but to the fact that those resources have been explored and made known and are being brought into the service of mankind.

MR. OLIVER SPEAKS IN MOOSE JAW.

Hon. F. Oliver spoke in Moose Jaw on Wednesday last. The following report of the speech is from the Moose Jaw Times:—

Mr. Oliver followed in a splendid speech of forty minutes and as is always the case, was given a most hearty reception and a most attentive hearing. It was only a few weeks ago that he had addressed the good people of Moose Jaw but he was glad of another opportunity of speaking to them. Although the Liberals had not been successful in Moose Jaw, he felt that his hearers were highly satisfied with the result in the provinces as a whole. The late contest was for a provincial election but the opposition fought it out on Federal issues; now the contest is for a Federal election where every issue discussed in the Federal election would be in order. But we do not hear a whisper. Suppose Scott had been defeated and we had a government at Regina pledged to the policy of setting province against province, race against race, creed against creed, this would not have been the case but instead we would have all the bitter strife and malignant race cries over again, and the province would have entered upon an era of retrocession, just as it has today entered upon an era of peace and progress. The people of Moose Jaw would no doubt regret that they had not a part in the declaration for Liberal policy and in the bringing about of these conditions but the opportunity was now before them to redeem the city from the unfortunate position it has been placed in.

No election was won till the last vote was counted and he trusted that West Assiniboia would stand loyally by and true to Liberal principles, which were well worthy of the greatest attention and the best efforts that can be put forth even in these busy times. Even in this materialistic age the success of Liberal principles were more important than dollars and cents, for the success of Liberalism means the success and material progress of the whole North West, and of no part of is more than the City of Moose Jaw, as Mr. Knowles had pointed out in his happy reference to the progress of the country since Laurier came to power. Moose Jaw in 1896 was a very small place. He had been here in that year, and found business blocks deserted, empty houses, and the ravages of a fire added still more to the appearance, that told the passer by that the town had almost come to an end. But today Moose Jaw is the first city in the North West, for compactness for substantial buildings, for progressiveness and business enterprise, and in saying this he was not forgetful of the fact that he himself was a citizen of no mean city. What had Liberal principles and Liberal policy to do with it? It had a great deal to do with it. Everybody knows that the government does not make the country, but everybody will admit, that the wisdom displayed in the guidance of the public affairs of the country, had just as much to do with the development and success of the country, as the good judgment and right policy has to do with the success of any business undertaking, and this intelligent progressive Liberal policy has had a great deal to do with the success of Canada during the last ten years.

We have had a great era of prosperity, and all are making money fast, a great deal of our increased wealth has come as the result of good crops but of the sum total only a small part has come from this source. Our wealth has increased more while we were sleeping than when we were engaged in our daily occupations. Not many years ago North West land was dear at $3.00 per acre; dearer than much of the same land is today for $20. For the sake of argument let us say land has been increased to the extent of $10 per acre in the settled districts like Moose Jaw. There are 22,000 acres in each township. An increase of $10 per acre means an increase of $220,000 in the wealth of every township in every settled district. What made the increase? The land is the same as when the Tories reigned. The sun shone when the Tories ruled and the rain fell. The increase in price was the result of the increased demand for the land, and the increased demand is directly and solely due to the vigorous immigration policy of the Laurier government, carried out with perseverence and energy at great cost and in face of the strongest opposition. The wise administration of the land, and the improved conditions of land settlement was a secondary cause and gave much satisfaction to new and old settlers alike. It is true that the Conservatives had as good intentions as the Liberals, but they did not have as good a policy, the difference being that under the Conservative policy success was just as impossible as failure is impossible under the Liberal policy. The electors of West Assiniboia are now asked for a declaration of opinion as to the Liberal policy. A declaration against the Government would be a declaration to return to the old order of things, and as a business proposition West Assiniboia cannot afford to make such a declaration.

BRITISH GOVERNMENT SHOULD HELP.

London, Feb. 7.—State-aided emigration is the policy strongly urged upon the new Government in a long article by Sir C. Kinloch cooke. He praised the work being done by the Canadian and Australian Governments and agents.

SIX KILLED IN A G. N. R. SMASH

Runaway Freight Crashes Into Passenger Train at Helena—Wrecked Trains Burned

Helena, Mont., Feb. 7.—Six persons killed or fatally injured are the casualties resulting from a wreck on the Northern Pacific line today. The dead are Chas. Bricknell, conductor; J. F. Robertson, bridge inspector; Edward Jezick, express messenger; Foster Zincela, butcher, of Helena, and two unknown passengers.

Passenger train No. 1 east bound was run into by a wild runaway freight which had gained a momentum estimated at more than 120 miles an hour in its run of fourteen miles down the east side of the mountain. The impact was so great that the engine of the passenger train was jarred loose and literally shot into the Helena union depot. The freight train being the heavier, lifted the passenger train into the air, but was itself wrecked by the debris. Both trains instantly caught fire and burned relentlessly. Several freight cars were loaded with lumber and the heat of the flames prevented assistance being given to the injured passengers and trainmen.

Jezick was pinned down by debris and talked rationally until the moment of his death. Several ineffectual attempts were made to rescue him, one man getting close enough to grasp his hand but could not release him. Jezick met his death with Indian stoicism. Three passengers including a woman, made their escape from the first class coach through a window. The fire was intensely spectacular and illuminated the entire valley for miles.

In the tremendous impact which occurred when the trains met, the bodies of Bricknell and Robinson were thrown clear of the right of way. Owing to the distance from the city limits and the absence of hydrants the railroad officials made no attempt to save the wreckage. Forty cars including two passenger coaches, were consumed, and the telegraph poles were burned, cutting off all communication. The injured were as speedily as possible removed to the hospital at Helena.

WINNIPEG WON

Portage la Prairie, Feb. 6.—The Winnipegs were given a scare here tonight in their league game with the locals that will hold them for a while. The visitors came looking for an easy victory, but instead they had to extend themselves to the limit to win. The score was 5—4 in favor of the Winnipegs.

CALGARY WAITS FOR STREET CARS

City Commissioners Favor Delay in Construction of System

Calgary, Feb. 6.—Though there was considerable discussion at the city council last night about street railways and other things, the members of the council seemed to be prepared for the most part to accept the verdict of the commissioners that the time had not arrived for a street railway in the city of Calgary.

The commissioners made a report. The report was referred back to the commissioners for additional information about the cost of running a street railway and about the revenue and expenditure in connection therewith.

The report of the commissioners reads as follows:

"Your commissioners have for the past fortnight given considerable consideration of the feasibility of constructing an electric railway in the city of Calgary and we herewith attach a detailed statement of the probable cost of seven and a half miles of track and rolling stock, but exclusive of power:

"To get an idea of the cost of a plant sufficient for present needs, we have assumed a line to run on Eighth avenue from Fourteenth street west to Moberly street, east of the Elbow. Also on Fourth avenue from Bow Marsh bridge to the Langevin bridge, also on Thirteenth avenue from Fourteenth street west to Sixth street east. Also a line on Fourteenth street west from Eighth avenue to Thirteenth avenue, and Second street east from Fourth avenue to Thirteenth avenue. The total length of these lines is about seven and a half miles. The cost of the above lines for single track with turnouts on all streets except double track on Eighth avenue from Fourth street west to Fourth street east, including all rails and connections, poles, wire, ready for traffic and car sheds, etc., complete with no cars, is $128,000, and with six cars would be $150,000. This does not include any power equipment, so that if a rotary converter were used in connection with our electric light plant, the total cost would be very close to $160,000.

"In view of the large number of public works that are likely to be promoted in this city for this year and the pressing needs of at least some thereof, and also in view of the small margin left us to borrow on general account we are of the opinion that it is inadvisable to even consider the matter this year.

"Your commissioners are aware that the undertaking of an electric railway in a town the size of ours is a matter of no small importance, and even after the same is completed the question of maintaining the same successfully is a very serious matter, which in the opinion of your commissioners would entail a considerable loss the first few years. It is well known that most of the eastern towns of the population of ours who have undertaken the maintenance of such a system have invariably gone into the receiver's hands, and it is questionable whether any institution would be willing to loan us the money at any reasonable rate of interest considering the danger of the loss to be entailed from the operation of such an enterprise.

"In consequence of the above reasons we recommend that no further action be taken for the construction thereof at the present time.

"Your commissioners have also had two applications before them with a view of obtaining the franchise of this city for a long term of years, one by a company incorporated several years ago for the purpose of operating a railway in this city, and another by a gentleman the names of the promoters of whom are unknown to your commissioners.

"R. B. Bennett, Esq., acting for the Calgary Street Railway Co., appeared before your commissioners and fully explained the various reasons why his company should have the preference should a franchise be given. No written proposal was received from him. Herewith is attached the application of Mr. Nichol.

"Considering the expressed opinion of a former council, as well as the well known opinions of many of our leading citizens, and having in view also the fact that the spirit of the age is in favor of all municipal institutions owning and operating their public utilities we have been unable to entertain the applications of either of these promoters."

—Saskatoon Phoenix: The Grand Trunk Pacific engineering department is rapidly perfecting all arrangements for constructive work on their line as soon as the frost is out of the ground. To facilitate their purposes the management have right-of-way men through the country buying up the farm property along the line of the proposed route. One of these gentlemen, Mr. George H. Pope, of Winnipeg, has been in Saskatoon for the past few days and working out from this point has been quietly securing the right-of-way for the road in the vicinity of Saskatoon.

BETTER PRICES ON FARMER'S MARKET

The farmers' market shows a decided improvement for the past few days. Oats are higher by a cent to two cents, and prices are firm with a steady rising tendency. Hay is better in price for upland and slough, although the market is dull and the demand uncertain. Wheat deliveries are light in Edmonton but better down the line, with prices steady and unchanged. The Alberta Milling Co. quotes wheat at 65 cents for No. 1 northern, 62 for No. 2 and 55c. for No. 3.

The following are the quotations on the city market.

Oats, feed, 25c.
Oats, milling, 26c.
O Barley, 25c.
Slough hay, $6 to $8.
Upland hay, $8 to $11.
Timothy, $14 to $15.
Coal, $3.50.

Deliveries—Better on coal; oats moving steadily and increasing; barley, light; hay rather dull.

SPORTS

HOCKEY

The Senior Thistles have decided to try their skill abroad, and the team will leave on Monday next on a tour of the Territories. On Monday evening they will play the Calgary seniors in Calgary. From Calgary they will go to Regina, and on to Portage la Prairie and Winnipeg. On the return trip they will play in Brandon, Moose Jaw and Medicine Hat. Chas. Griffiths, manager of the team, and J. A. McKinnon, secretary, will accompany the boys. What the line up of the team will be for the trip is not yet known.

That the trip will be a success no one questions for a moment. It is hardly expected that the Thistles will hardly expected that the Thistles will down every team they meet, but they have the bunch right here that can give any team in the west a lively time of it. Winnipeg will be a tough proposition, also Brandon, but the gang from Alberta should give them a close run.

THISTLES PLAY STRATHCONA

The Edmonton Senior Thistles will play an exhibition match with Strathcona in the Thistle rink tomorrow evening. The game will commence at 8.30.

This game is the outcome of the series of matches played here last week with the Rossland team. Rossland came over the border into Alberta, boasting a brilliant record and bringing a team which they claimed could trim anything in the sunny province to a finish. They played the first game of the series in Edmonton with the champion Thistles, and were defeated by 5-0. They went across to tackle the fast Strathcona seven, and were beaten so badly that their much-vaunted reputation as a hockey aggregation was swept clean out of sight. The first game resulted 14-1, and the second one 9-3. But when they came back to play the Thistles in the last game, they treated the slim crowd that gathered t oa big surprise and trimmed the Edmonton boys 5-3.

The Strathconas were surprised also that the team which captured the Peterson cup from them should go down to defeat before a gang of puck chasers that was so badly swamped by themselves and they immediately became anxious to try their luck again at their old-time rivals.

Consequently there is much speculation in regard to the game tomorrow night. The weather has been ideal for the past day or so, and the rink will likely be taxed to its utmost to accommodate the crowd that will gather.

RUSSIAN ELECTION ANNOUNCED

St. Petersburg, Feb. 7.—The elections to the National Assembly are fixed for April 7th. The opening session will take place on April 28th, this is the feast of annunciation, on of the great Russian holidays. The weeks interval between the elections and the convocation of the assembly is the shortest time in which representatives from Siberia and other remote localities could arrive here.

AN APPRECIATION OF WINSTON CHURCHILL

Mr. Winston Churchill is in a class by himself. Irresponsible in his energy, clever and aggressive in character, impressive in an oratorical faculty which seems to have enormously developed since his visit to Canada some years ago, this youthful politician—he is barely 31 years of age—has plunged into the arena of party warfare fully panoplied in principle and with more than the assurance and audacity of an experienced veteran in the fray. His resemblance to his father is striking in both mental and physical characteristics and the latter fact is the only apparent element of real difficulty lying in his way to power and position. To some extent indeed, he already has these frails of time and toil; in his case the result of a brilliant succession of speeches and Parliamentary debates extending over a brief period. Like Disraeli sixty years ago, or Lord Randolph Churchill in later days, he has defied his chiefs and attacked the biggest man in sight with barbed bitterness and acrimonious cleverness unlike Disraeli, or his own father, however, he has left his party and joined the enemy. Responsibility may leaven the lump of his assurance; may modify the manner which has created an atmosphere of unpopularity for him in Canada; may alleviate the not unnatural conceit of any young man who has become a national figure in a few months and has had his life written at an age when most men are beginning their careers. Flippancy of speech, even when clever, is not oratory and does not usually aid a man in either party warfare or statecraft. It will be well if Mr. Winston Churchill remembers this fact in his future treatment of statesmen such as Mr. Chamberlain. To receive at the close of his tenure of office even a modicum of the respect and consideration which is felt for the Tariff Reform leader in the Colonial Empire would be ample reward for the most ambitious and rising of youthful politicians. —Canadian Graphic.

LOCAL

—Skating in the Thistle rink tonight. Band in attendance.

—Hockey match at the rink on Thursday evening, Edmonton vs. Strathcona.

—The Young People's Guild of Queens avenue church will hold a social on Monday evening.

—A large crowd was in attendance at the rink last evening, and the ice was in good condition.

—Galt, Feb. 5.—The remains of Arly refused the application for a habaes were interred in Trinity cemetery here.

—Mrs. W. B. Poucher 5th street west has just received the sad intelligence of her father's death, Mr. Donald McQuarrie, of Aberdeen, Ont., who died on Feb. 2nd aand was buried on Feb. 5th.

—Calgary Herald: At the supreme court this morning, by consent of all counsel engaged in the case, Mr. Justice Harvey without argument formally refused the application for a habeas corpus and gave leave to appeal to the full court en banc, where the case will be argued.

—The members of the Bible class of McDougall Methodist church held a social last evening, together with a number of their friends. A most enjoyable time was spent in games and other entertainment. After refreshments wee served a short program was rendered by the members of the class.

—Calgary Herald: Yesterday's trains were delayed several hours owing to high winds and cold, between Brandon and Swift Current. It was reported over 30 below zero at Regina. This side of Medicine Hat the weather was calm and mild and the trains gained time. The Governments reports today show that Calgary was the warmest place along the line. Zero weather both night and day is reported from Manitoba and Saskatchewan. Winnipeg being 28 below and Regina 34 below.

—Grand Forks Herald: Application has been made to the Canadian Government by the Alberta Southern Railway Company, controlled by Great Northern interests, for permission to build lines from Lethbridge to the British Columbia boundary, from Lethbridge to Calgary and from McLeod to Medicine Hat. The same company has purchased the charter granted to another company for a line from Medicine Hat to Edmonton. By constructing these lines the Canadian Northern will cut up the most valuable of the territory controlled by the Canadian Pacific, and Great Falls will be on a line extending from the Gulf of Mexico to Edmonton. The Great Northern now has a line from Great Falls to Lethbridge and the line to be constructed from Great Falls to Billings will give connection with the Burlington controlled by Hill, which connects with the "Katy," recently purchased by the Hill people extending to the Gulf.

THE WEATHER

Winnipeg, Feb. 7.—The weather has been clear and mild in Alberta and quite cold and windy in Saskatchewan and Manitoba.

B. Allison, of Griesbach & O'Conner's law office, returned to the city on Sunday from Nova Scotia.

OFFICIAL REPORT OF WINNIPEG EXCURSION.

The following is the city commissioners' official report of the Winnipeg excursion as prepared for the city council:

It will be placed on record at the earliest moment that a majority of the Council, together with the Commissioners accepted an invitation by the Canadian Northern Railway to journey over their new line to Winnipeg. In company with members of the board of trade and other citizens, we left Edmonton at 8 on the evening of January 27 and arrived at Winnipeg early in the afternoon of the 29th. The train was a magnificent one consisting of three Pullman cars, the Saskatchewan, Dalmeny and Battleford, private car Neepawa, together with another coach and a dining car. The train was reamrkably steady all the way, indicating excellent construction of the track.

A large majority of the party arrived back in the city on Sunday evening, the 4th inst., by the same train which conveyed us eastward. The monotony of the return journey was, however, varied by our passing through a genuine old time Manitoba and Saskatchewan blizzard, the snow piling and obstructing the way and delaying the train in certain cuttings west of Humboldt, Sask.

There were no official receptions in Winnipeg to our party, the various members spending their time in their own way. Some of us met Mr. Fisher of the Chicago Automatic Telephone Co. by appointment. Mr. Fisher pointed out the many advantages possessed by his system. His Worship the Mayor and Aldermen Manson and Boyle went further south to see the system at work on a large scale in certain cities pending official reports which are ordered by the Council.

Some of us were conducted by Mr. Paterson of the Bell Telephone Co. over their extensive premises in Winnipeg and saw work in progress on the new switch board for 10,400 subscribers.

Others of our party also saw various city works in progress, but not in any official way.

It is needless to say hearty thanks were voted by the party to the Railway Company, Superintendent Brown and other officials of the Board who joined to make the journey pleasant and a success from start to finish.

J. M. HARGREAVES,
Public Works Commissioner.

FAMILY IN NEED

At the city council meeting last night Alderman Mays, chairman of the santitation and relief committee brought to the attention of the Aldermanic board painful case of poverty and destitution calling for immediate relief by the city authorities. The unfortunates mentioned were the wife and family of E. S. C. Hoover, who was sentenced in the police court to two months at hard labor for having brutally beaten his wife .

Mrs. Hoover and her family of five children, the oldest a delicate boy of fourteen, are living in a house on First street about two blocks past the Canadian Northern depot. When the chairman of the relief committee investigated the matter yesterday, he found them in poverty with no provisions in the house and practically on the verge of starvation. The woman was very brave and said that while she was suffering considerably from rheumatism and the abuse recently heaped on her by her husband, she would soon be able to earn her own living and did not like to become a charge of the city.

The council ordered that immediate relief be furnished, and the chairman of the relief board this morning gave the necessary orders to relieve the distress.
